SUPPLEMENTAL RESPONSE TO RESTRICTION REQUIREMENT -  
OFFICE ACTION MAILED SEPTEMBER 25, 2003

In response to the previous Office Action mailed July 3, 2003, Applicant filed a response on July 30, 2003 and elected claims 1-12 and added new claim 25. This response was also understood as narrowing the species to that described in claim 1, namely, "a transparent substrate" having an ablatable coating "comprising at least one layer", with the substrate serving as a dual-function printing member. The description further elaborates on Example 1 (Fig. 1) with a preferred embodiment of the invention.

Therefore, Applicant respectfully requests that the Examiner consider the above as a completion of the previous response, with the elected species being that of Example 1, as shown in Fig. 1.

Applicant respectfully requests favorable reconsideration and allowance of the application at an early date.

Respectfully submitted,

  
Edward Langer, Pat. Atty.
